[Portfolio](#) [LinkedIn](#)

I have 2 years of experience in design and development of interface layouts for web applications, marketing websites, and platforms. I adore systematizing information, immersing myself in user and business needs

Worked on B2C projects in medtech, foodtech, proptech

Briefly about me

Key Skills

- UX research and analysis (competitor analysis, Desk Research, User Flow and others)
- UX copywriting
- Design and development interface mockups
- Creating low-fi and hi-fi interactive prototypes
- Creating and maintaining UI-kits
- Data systematization and visualization (graph and charting)
- Knowledge of usability and accessibility standards (WCAG)
- Excellent knowledge of web development technologies (HTML, CSS, JavaScript, SQL, Svelte) and understanding of technical limitations
- Collaboration with developers

Tools

- Figma
- Miro
- Adobe Creative Suite (After Effects, Photoshop)
- Excel
- Notion
- Visual Studio Code

Languages

- Russian (native)
- English (B1)
- French (A1)

Work experience

UX/UI Designer · Contract

Oct 2022 – Dec 2024 · 2 years

Created 4 end-to-end projects in B2C segment in medtech, foodtech, proptech:

- Designed and developed interfaces for web applications, marketing sites, and platforms
- Developed responsive, cross-platform interfaces, considering various device features
- Designed user flows, considering technical constraints
- Tested hypotheses, conducted basic UX research and analyzed competitors
- Created initial prototypes and wireframes
- Built interactive prototypes using Figma
- Developed UI-kits
- Engaged in UX copywriting
- Established UI guidelines and designed brand identities
- Reduced object presentation time by ≈50%, creating a unified page design
- Engaged in project management and collaborated with backend-developer to ensure complete project on time and on budget
- Provided feedback to clients every week, which helped to quickly agree on tasks and minimize revisions

Frontend-developer · Contract

Nov 2021 – Dec 2024 · 3 years

At the beginning of my career, I focused on web development and front-end development. Over time, I realized that design and development of interfaces is more my passion. Now, I use my development skills as a tool for validating and optimizing design solutions, improving accessibility

Education

Bachelor's Degree · Multimedia Technology and Information Design

Perm National Research Polytechnic University

- I actively apply the knowledge gained at the university in real projects
- Grade point average: 4.92
